

SCHOCK

Abey^{AU}

Schock Sinks

Genuinely sustainable, genuinely premium.

Schock was established in 1924 and took the world by storm with the creation of the first granite sink in 1979, which to this day continues to be manufactured in Germany.

The quality German engineered sinkware has been created using state-of-the-art composite Nanogranite® materials.

Product advantage

Schock sinks consist predominantly of quartz. The finishes were specially developed by Schock for the demands of the kitchen. The rigours of everyday leave barely a trace on our proven material technology.

Schock is the inventor of the coloured, quartz composite sink and is the only manufacturer to offer CRISTADUR®, a premium silky-smooth finish.

EASY TO CLEAN

Poreless surface for an extremely easy-clean, hygienic finish.

ODOUR FREE

Leaves the surface free of smells
DIN 10955

HEAT RESISTANT

Not temperature sensitive up to 180°C

GREEN LINE

Based on resource-saving production in Germany and quartz as the main component, all Schock quartz composite sinks are made with a responsible approach to nature and the environment.

The CRISTADUR® Green Line is Schock's most sustainable option for a conscious purchasing decision as well as an additional upgrade for the kitchen architecture.

The Green Line Collection is available in

CARBON NEUTRAL COMPANY

Our path to a responsible and sustainable future includes the continuous improvement of our processes at all levels. From biodiversity on our factory site, resource conservation in production to equality and health protection for our team and the entire supply chain.

GREEN LINE

The innovative product line from SCHOCK impresses with its sustainability optimised composition as well as its high-quality matt colours.

KALLIO

The Schöck Green Line Kallio sink combines eco-friendly innovation with sleek, modern German design. Made from sustainable materials, it offers durability and a striking finish in either Day (White) or Night (Black). The Kallio sink has been designed for ergonomic cleaning with space for dishwashing utensils and spacious bowls for cleaning the largest pots and pans.

KM-100

KM-175

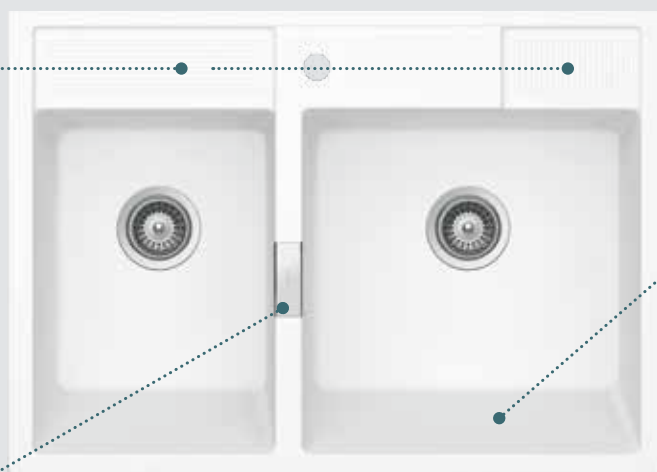

Closely spaced drainer grooves
emphasise the sleek look.

Length-wise grooves
on the right as a place to put
dishwashing utensils.

Width-wise grooves
on the left as a non-slip space
for standing up and draining
chopping boards or a place to
put dishwashing utensils.

**Designer
overflow**

**Slanted edge to the
front of the bowl**
for ergonomic cleaning
of baking trays and such.

Spacious bowl
with room for large cooking utensils.

CRISTADUR®

advantages

The premium material wins fans with its patented, poreless structure and beautifully shimmery finish, from which any dirt and water simply roll off. Being extremely easy to clean, it's not just the look of CRISTADUR® that makes it a luxury to befit any kitchen.

The CRISTADUR® Collection is available in

SILKY-SMOOTH

Feel the difference with the poreless structure.

DIRT REPELLENT EFFECT

Water and dirt simply roll off the surface, leaving nothing for germs and bacteria to grow on.

EASY TO CLEAN

The poreless finish and dirt repellent effect makes the sinks extremely easy to clean

EASY TO CLEAN

Poreless surface for an extremely easy-clean, hygienic finish.

Patented technology.
Further patents pending.

SIGNUS

The Schock Signus Cristadur collection of sinks offers luxury with advanced Cristadur technology, featuring a smooth surface that is both durable and easy to maintain. The drainer models have been engineered in Germany to ensure water will flow back into the sink, preventing excess water pooling on the countertop. With a variety of configurations with deep bowls, each model is available in a Magma (Black), Polaris (White), Stone and Puro (Pure Black) finish.
