

Abey^{AU}

Kitchen Collection

The premier destination for quality designer products.

Abey^{AU} 70 YEARS SINCE 1956

Abey Australia are both creators and innovators, drawing on our heritage as leaders in business and aficionados of design.

Since 1956 we have established a diverse portfolio of premium products with global brand partners who share our vision for innovation and remarkable design. Together we empower you to push the limits of creativity and design in the kitchen, bathroom and laundry.

Our expert and efficient service, and shared passion for inspired design empowers our clients to create new design possibility. Abey Australia —the premier destination for quality designer products that are the genesis of new design possibility.

Abey Australia — Creating possibilities.

SCHOCK

Abey^{AU}

Genuinely sustainable, genuinely premium.

SCHOCK was established in 1924 and took the world by storm with the creation of the first granite sink in 1979, which to this day continues to be manufactured in Germany. The quality German engineered sinkware has been created using state-of-the-art composite Nanogranite[®] material.

SCHOCK
Collections

Product advantages

CRISTALITE⁺

The on-trend finish CRISTALITE⁺ from the house of SCHOCK is a classic with global appeal. This slightly rough, stony finish is hard-wearing and easy to clean, making it the embodiment of long-lasting cooking pleasure.

CRISTADUR[®]

The premium material wins fans with its patented, poreless structure and beautifully shimmery finish, from which any dirt and water simply roll off. Being extremely easy to clean, it's not just the look of CRISTADUR[®] that makes it luxury to suit any kitchen.

GREEN LINE

The CRISTADUR[®] Green Line is SCHOCK'S most sustainable option for a conscious purchasing decision as well as an additional upgrade for the kitchen.

Largest manufacturer of granite kitchen sinks

Designed & manufactured in Germany since 1979

Offers exceptional strength & durability

Stain resistant

Heat resistant

Abey[™]

A piece of history and prestige.

Over the course of history, France has become synonymous with rich culture and strong heritage which is embodied through the spirit of Chambord. The desire for beautiful French craftsmanship is expressed through each product, from design to manufacturing and from raw materials to the finished product. Since 1896, Chambord have been using the same production techniques and precision. By bringing their product into your kitchen, you are bringing a piece of history and prestige.

These kitchen sinks are made with fireclay, which is an ideal material for the kitchen. It's easy to clean, insensitive to temperature and effortlessly hygienic.

Pearl Arc Technology

Our exclusive Abey's PearlArc Technology utilises the latest cathodic arc surface treatment technology. The difference between Abey's PearlArc and competitors coloured Stainless Steel is our 3 step process. Most other manufacturers only do the PVD step!

By adding the shot-peen & nano-resin layer, our sinks are much more scratch resistant and hard wearing.

The shot-peen surface hardening of the stainless steel creates a more durable surface that is both scratch-resistant and impact-resistant.

Commonly referred to as PVD, Titanium Oxide Coating is a vapour deposition technique where solid titanium metal is vaporised in a high vacuum environment and deposited onto the sink surface as pure metal coating. The result is an extremely hard wearing coloured layer.

A nano-resin layer of hydrophobic active substance provides a long lasting ultra-thick and durable easy to clean surface.

316 Marine Grade Stainless Steel.

An Alfresco area would not be complete without a Sink and Kitchen Mixer that can stand up to the elements. Abey has created a range of 316 Marine Grade Stainless Steel Sinks and Kitchen Mixers which are functional as well as inspirational.

Marine Grade Stainless Steel 316, due to the presence of molybdenum, is considerably more resistant to corrosive environments than the standard 304 stainless you will find in many indoor kitchen sinks and tapware. Marine Grade 316 is appropriate and suitable for sea water environments, coastal and marine applications. Due to its greater resistance to oxidation, it is the only choice for an alfresco area.

XX ARMANDO
VICARIO

Abey™

Sleek, Simple and Stylish.

Located in Gozzano, Italy, Armando Vicario is renowned for their modern design and high-quality kitchen tapware. Their products have been selling for over 40 years, and have consistently used professionalism, experience and constant engagement to produce high-quality taps for a modern design and reliable “Made in Italy” mark. Sleek, simple and stylish – the Armando Vicario range displays European elegance that is designed to last and to impress.

Our well-articulated product range starts from modern single lever mixers in a young and functional design, to the most classic old time pieces.
